

## Power Pool Sport

Ideally engineered for homes with small yards or indoor spaces, the PowerPool™ Sport model utilizes “filter-forward” construction and “radius-rectangular “ design to provide the largest aquatic exercise and swim zone available in the size category.

While modest in size, the Sport model is built to the same exacting standards as the MAAX® Spas products and features MAAX® Spas’ unique PowerForce swim jet system, balance bar handrails, PowerStroke rowing and resistance exercise equipment, and physician designed hydrotherapy seating. Swimming, exercise, health and fitness; with PowerPool™ Sport, big things do come in small packages.
