

## Power Pool SuperSport

Enjoy the best of both worlds with the PowerPool™ SuperSport; a combination swimspa and hot tub. Its two separate operating systems allow you to keep the swim zone at your desired exercise temperature while maintaining your hot tub at a higher temperature for hydrotherapy and stress relief.

Work out to your maximum level in the exercise side of the SuperSport to the PowerForce swim jets or use the PowerStroke exercise equipment for strength and resistance training; then relax and soothe tired muscles in the comfort of the integrated hot tub. Power, comfort and convenience; PowerPool SuperSport, all in the safety of your own backyard.
