

Royal Spas Model / Emperor II

Stress has met its match. The Emperor II delivers outstanding performance with 45 jets, including the “Hot Seat”, which offers 11 jets (7 double pulsating jets, 2 palm jets, 2 precision foot jets). When the mood strikes, however, you can choose to sink into one of its two luxurious loungers and simply soak away the stresses and tensions of your day. The 2 extremely comfortable loungers are side-by-side and facing each other and they accommodate a wide range of heights, while its corner seats deliver a variety of targeted back massages. The Emperor II allows for a small child to sit next to mom or dad in the booster seat.
