

## Royal Spas Model / Monarch

The Monarch is so roomy you will feel like Royalty. This spa will take you back to the original "Hot Tub" days and will still wow you with all of the latest advancements in its features and benefits. The Monarch gives you plenty of good reasons to stay home and spend time together. The Monarch is big enough for eight people. If you wish to entertain your friends or family, you must check out the volcano jet that is centered on the floor of the spa. This powerful jet creates a column of water that erupts over well above the water. The whole family will get a kick out of this jet.
