

## Royal Spas Model / S-1000

The 1000 Series Spas are virtually indestructible. The spa's shells are constructed from EMP (Enhanced Molecular Polymer). The cabinet is made with a "Maintenance-Free" Synthetic material that requires "NO Sanding or Staining". These Spas are Fantastic! Just plug them in, fill them up and BRING ON THE RELAXATION.

The spa is wrapped with a two-pound density solid-core foam to provide ultimate heating efficiency. Unlike most spas the 1000 Series Spas have an insulation that is completely removable for ease of maintenance and repair.
