

Royal Spas Model / Sultan

If the party is at your house, you are ready! You can pile everyone in your Sultan. Its varied seating accommodates everyone from the tall to the more vertically challenged and gives each, his or her own personal spot. The built in cool off seat or kid's spot makes it an ideal family spa as well. From the family of four, to the neighborhood block party, this spa has it all. You'll have shoulder jets working on you like fingers to unwind the kinks from life's daily stresses, upper and lower back to finish loosening you up, and foot jets as well as pressure point massagers for your tired aching feet.
