

The Royal SwimSPA

The Royal Swim Spa

Innovative engineering brings the best of both fitness and relaxation together the ultimate Royal Swim Spa. Ergonomically designed seating is ideal for "hot tub only" mode. Operating on a 60 amp, 240 volt service allows conventional installation. Strategically engineered, the six turbo jets provide both bottom lift and direct force for optimal workout dynamics.

A dedicated pump system provides output flexibility from 0 to more that 1000 gallons per minute to challenge any level swimmer. Pump, motor and electrical equipment are located at the opposite end from steps for easy access. The Swim Spa measures 15' x 7'10" x 4'. Year round use for the whole family. Swim a mile, without making a turn. Available in Sahara Quarite and Caribbean Quarite.
